ENGLISH

Activity 1: Short Story recommendation

Write a short story recommendation (Letter Format) for a friend or family member.

1) Begin with a greeting

Write “Dear [name of your friend or family member],”

2) Introduce the book- Mention the title and author of the short story.

Example: I just finished reading ‘The Three Questions’ by Leo Tolstoy.

3) Give your opinion- Explain why you liked the Short Story. Mention things like:

– the main character, an exciting part, a lesson you learned, how it made you feel

4) Make your recommendation- Tell your friend or family member why they should read it.

5) Close your letter- End with a closing like:

Your friend, or Sincerely,

Then sign your name.

Activity 2: Story Starter (Creative Writing)

Write a short story using the starter “ I found a mysterious box in my grandma’s room...”

1) Start your story with: I found a mysterious box in my grandma’s room...

2) Include the following elements:

– Main character (Who is the story about?)

– Setting (Where and when does it happen?)

– Plot (What happens after the box is found? What’s inside? What problem or surprise occurs?)

3) Keep it short and clear(100 to 150 words)

4) End with a twist or conclusion.

-How does the story end? What happens to the box?

Activity 3: Error Analysis

Instructions:

1) Read the given paragraph carefully.

2) Identify and correct the subject–verb agreement errors.

3) Explain why each correction was made.

MATHS

1.Operation on numbers

Look at the picture below:

*There are 21 big squares for the numbers and 15 small squares for the operation signs.

*Each big square must have a number that is the sum or difference of the numbers on the squares just below it. The small squares must carry the necessary operation signs.

*Some of the big squares and a small squares are filled with numbers and a sign. Use these as hints to fill the rest of the big squares and the small squares to complete the pyramid.

2.Basic Geometry

Using matchsticks make a triangle. Name all the vertices and measure all the angles.
